Advanced Aesthetic Provisionalization: Restorative “Hands-On” Learning Using New Technologies

Presented By: George F. Priest, DMD

Aesthetic implant restorations require a sound understanding of peri-implant profiles and a technical foundation of appropriate implant components. This “hands-on”, interactive program will present the fabrication of provisional implant restorations using recently designed components, which facilitate clinical procedures focusing on aesthetic results. This course will include a discussion on immediate placement and aesthetic restoration of implants in appropriate situations. Participants will follow step-by-step procedures, clearly demonstrated by video segments and digital images, then perform these procedures with supplied models and components. Clinicians will be provided with information regarding immediate provisional restorations and the selection of appropriate CAD/CAM abutments for patients desiring cutting-edge technology.

Objectives:

- Understand the development of soft-tissue profiles with provisional restorations
- Learn immediate provisional restoration techniques for single- and multiple-unit implant prosthesis
- Recognize the indications for CAD/CAM restorations
- Have the ability to select components that are appropriate for specific restorations

Registration:
7:30–8:00am

Program:
8:00am–4:00pm

Tuition:
\$699
Includes Continental
Breakfast And Lunch

CEUs:
Six (6) Total
Three (3) Lecture And
Three (3) Participation

Date: Saturday, October 3, 2009

Location: The Institute For Implant And
Reconstructive Surgery
4600 East Park Drive
Palm Beach Gardens, FL 33410

Or:

Date: Saturday, January 30, 2010

Location: The Integra Institute

BIOMET 3i is an **ADA C-E-R-P** Continuing Education Recognition Program recognized provider.

Registration/Cancellation/CE

To provide each course participant with a focused and personalized educational experience, the number of registrants is limited for each course and registration is accepted on a first-come, first-served basis. Full tuition payment must accompany all registration forms. Upon receipt of registration form and tuition fee, BIOMET 3i will send a confirmation letter.

Confirmed registrants unable to attend their course can obtain a refund (less \$50 administration fee) by notifying BIOMET 3i Registration Services in writing no later than 14 days prior to the course date. Cancellations past that date will be subject to an additional penalty. BIOMET 3i reserves the right to cancel a course no later than 14 days prior to the course date.

Please be aware that BIOMET 3i is not responsible for reimbursement of a non-refundable airline ticket or any other travel expenses in the event that a course is cancelled.

Continuing education credits awarded for participation in the CE activity may not apply toward license renewal in all states. It is the responsibility of each participant to verify the requirement of his/her state licensing board.
