COVERAGE MAKES SENSE

Most people remember when a family member or neighbor could tinker under the hood and keep their vehicle running. Times sure have changed, and today's highly technical and computerized vehicles require factory-trained technicians with the assistance of very expensive diagnostic equipment to diagnose and repair a mechanical failure.

PLAN QUALIFICATIONS

Platinum coverage may be purchased at any time, provided the vehicle has at least one (1) mile of factory warranty remaining. For vehicles outside the manufacturer's warranty, eligibility is 10 days from purchase date or competing financial institution payoff.
